

TOA: RESTAURANT AUDIO SOLUTIONS

Add the right ambience to your restaurant with the correct audio equipment. Most hospitality venues are looking for intelligible sound, easy operation, multi-zone capabilities, paging and background music that matches the restaurant, lounge or patio. TOA has your sound solution.

TOA's speakers and amplifiers are designed to work 24/7 to provide trouble free service for years.

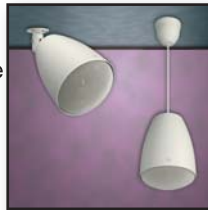

SPEAKERS

TOA has 3 styles of speakers, that are ideal for restaurant applications, so the right speaker can be matched with the intended use.

Pendant Public Address Speakers

PE-304, PE-64

- Ideal for open concept ceilings, TOA's Pendant Speakers are designed to focus the background music in the desired area without compromising the visual appearance of the restaurant.
- These stylish speakers are paintable and resemble the finest lighting fixtures.

F Series Box Speakers

F-1000, F-13000, F-2000

- The F Series box speakers are versatile speakers designed to provide quality sound over a wide range of frequency response and power handling.
- These speakers provide sound that is soft and quiet for an intimate dinner or vibrant and strong for a night out with friends.
- Available in 3 sizes, in black or white, and with weather-resistant models the F Series box speaker is certain for suit any environment.

F Series Ceiling Speakers

F-2852C, F-2352C, F-2352SC

- TOA's F Series wide dispersion ceiling speakers provide wide sound coverage reducing the number of speakers needed to cover an area.
- Two-way co-axial models include the F-2852C with 6.5" cone driver, both the F-2352C and F-2352SC have a 5" cone driver.
- Each model has a special diffuser with built-in dome tweeter for superior co-axial performance.

AMPLIFIERS

Do you have different music requirements for your lounge, patio, and main dining areas? TOA offers several types of multi-channel digital mixer/amplifiers that can route different music sources and volume settings to each room.

9000M2 Series Modular Digital Matrix Mixer and Mixer Amplifier

A-9060SM2/DHM2, A-9120SM2/DHM2, A-9240SHM2, M-9000M2

- This product redefines the conventional mixer/amplifier category by combining a modular matrix mixer, digital signal processor, and amplifier in a compact, two rack space package.
- Ideal for multi-zone paging, music distribution and room-combining applications.
- Features include ambient noise control, telephone zone paging, and automatic microphone mixing.
- Designed to be used in conjunction with optional modules and can be configured for up to 8 mic/line inputs and 8 outputs.

DA Series Multi-Channel Amplifiers

DA-250D/DH/F/FH, DA-500F-HL, DA-550F

- DA Series multi-channel power amplifiers offer a wider choice of power ratings, advanced digital Class D amplification circuitry, and a highly efficient AC mains to output power ratio, for the complete technological superiority it takes to support long-term installation applications.
- TOA's DA Series Amplifiers are energy-efficient and space saving making them well-suited to ensure sound reinforcement reliability.

BG Series Mixer Amplifiers

BA-220, BA-235, BG-235, BG-260, BG-2035, BG-2060, BG-2120

- The BG Series Amplifiers are performance oriented amplifiers available in 20W, 35W, 60W or 120W.
- Ideal for music distribution, paging, music-on-hold applications and more.
- The BG Series incorporates all the performance and audio quality that TOA amplifiers are known for, including extended frequency response, high S/N ratios and minimal distortion, along with ultra-stable output regulation.
- Easy installation and operation make these cost effective amplifiers a great choice to achieve the audio your restaurant is looking for.

All of these Product Lines are covered by TOA's 5 year warranty.
