

Conferences come in all shapes and sizes;
fortunately, so do Bosch Conference Systems.

BOSCH

Invented for life

Integrus Wireless Language Distribution System

The Integrus system is an infra-red language and audio distribution system that provides both the owners and the users of conference venues with a versatile means of language and audio distribution. The system can transmit up to 32 languages or audio channels simultaneously, and the high-quality digital audio signal provides high speech intelligibility.

Digital Congress Network - Next Generation

The Bosch DCN Wireless Discussion System offers organizations exceptional functionality and freedom. Conferences and seminars in both small and large venues can now be set-up with the ultimate ease and flexibility.

Hands on demonstration
