Inland

Why Webcasting?

Benefits of Webcasting:

- Extend Reach
- Reduce Costs
- Gain Valuable Information
- Timely Disclosure
- Secure Access
- Archive Information

www.inlandav.ca

Inland AV Webcasting

Inland AV offers highly flexible webcasting solutions. A branded webcast can be delivered as a fully-managed solution where Inland AV executes all functions of the event setup, production and administration.

Benefits of Webcasting:

■ Extended Reach

Reach more people by providing your audience with the ability to attend meetings and training from home, office or wherever you have internet access.

■ Reduce Costs

Reduce costs and lost productivity associated with transporting employees, suppliers or customers to physical meeting and training locations.

■ Gain Valuable Information

Gain valuable information with live Q & A, chats, 2-way audio, polling, surveys, testing, certification and extensive reporting and analysis capabilities.

■ Timely Disclosure

Webcasting allows organizations to broadcast meetings live, allowing for timely disclosure of sensitive information.

■ Secure Access

Restrict access to meetings by providing audience members with generic or customized passwords.

■ Archive Information

Store meeting content in an archive, allowing viewers to access meetings on-demand 24/7.

Webcasting Tutorials

Log onto www.inlandav.ca for more webcasting information, case study and six webcast tutorials.

The screenshot shows a webcast player interface. On the left is a 'client logo' for Streamlogics. The main area is a 'media player window' displaying a video of a woman. Below the video is an 'indexing box' with a list of topics. On the right is an 'event title' area with the text 'Inland AUDIO VISUAL' and '8 Steps to a Successful Webcast'. Below the video is a 'resources' section with a search bar. On the far right, there are labels for 'slide window; PowerPoint, Flash, video, other documents' and 'interactivity Q & A'.
